

We designed this treedigger, trying to put together the qualities from the other machines of our range of products. The HZC 25 is a very compact machine that can work where lines are very close, besides the turning blade system allows to dig out trees in spaces where other machines can't enter.

Rootball Dimensions	10" - 28"
HP	35
Weight (w/ blade)	3,549 lbs
Tracks	Rubber
First Speed	2.2 MPH
Second Speed	4 MPH
