

The Infaco A3MV2 is an electrical tying device that makes vine tying easy. The machine is highly versatile for single or double Guyot or bowed vine training. The knotting time of this machine is less than 0.4 seconds. A soft steel wire is used for greater flexibility, strong enough to hold until harvesting but easy to destroy after a year at pruning time.

Wire Diameters

- 0.40 mm/approx. 1000 ties per reel
- 0.46 mm/approx. 900 ties per reel
- 0.50 mm/approx. 650 ties per reel
- 0.55 mm/approx. 500 ties per reel (48V Only)

	48V	12V
Battery Life	12,500 Ties	7,000 Ties
Charge Time	1.5 Hours	5 Hours
Opening Diam.	1.18"	1.18"

**Ultra-Compact
Lithium-Ion Battery!**

MODEL	Description	Weight
A3MV2.0	A3M Set w/ Tying Machine, (1) 12V Battery, Belt, Holster, (1) Spool of Wire (0.46mm)	2.8 lbs
A3MV2DB	A3M Set w/ Tying Machine, (2) 12V Battery, Belt, Holster, (1) Spool of Wire (0.46mm)	2.8 lbs
A3MV248	A4M Set w/ Tying Machine, (1) 48V Battery, Holster, Lubricant, Wire Cutter, Hex Wrench	3.2 lbs
