

The Tortella 205 Series of heavy spaders are suitable for use with all crop types. The configuration and sturdiness of the structure allow the machines to reach a good working depth and avoids clogging even in wet soil conditions. All machines are equipped with a 3-speed gear shift lever.

Standard Equipment

- CE Accident Prevention Protection
- 3 Point Hitch
- Rake
- Internal or External Depth Adjustment
- 540 RPM PTO
- External Frame Supports

Optional Equipment
