

The Rinieri BRF Mower/Bush Cutter Arm is for tractors with small powers 20-50 HP ideal for hobbyists and small businesses. The BRF model is ideal for cleaning ditches, roadsides, gardens, or sloping banks for pruning grass or small branches up to 3/4" in diameter. The entire range of brushcutter arms includes 4 models with outreach from 5.25' to 11.5', already prepared with double couplings for tractors with front lifters or reversible tractors.

MODEL	A	B	C	D	E	F	G	Weight	Engine HP	# of Flails
